JOETSU AREA FIRE DEPT.
FIRE CASE FILE

こんな**火災**が発生しています **There's a fire like this**

Cigarette fire

CASE
1

Fire broke out from a cigarette butt case

Soak cigarette butts in water before throwing them away.
Even if you try to smother it out, if there is just a little bit of fire left, it will continue to burn slowly in the garbage can, and at some point it will turn into a big fire.

Mind you? Be sure to soak in the water!

焼け跡から見つけた
大量の吸い殻

吸い殻は確実に水に浸けること！

CASE
2

Improper disposal of cigarette embers by hikers

Some hikers are a nuisance.
I think he thought he had extinguished his cigarette properly, but he couldn't put it in the portable cigarette butt, so it quickly spread to the dry grass and dead leaves.

It's a hiker's etiquette to bring a portable butt case!

CASE
3

Fire caused by discarded cigarette

This is outrageous.
Do you throw lit garbage in your garden? No, you shouldn't do that. Despite this, every year there are fires caused by discarded cigarettes in the city.
This is the same as arson. We want you to be responsible even for small fires.

火気の不始末は
許されない行爲です

You can watch a video of the experiment on YouTube!
